If you agreed or strongly agreed with the previous statement, explain how or why?

7 responses

Ibisd and cams still requiring us to have full days of school during the pandemic was a horrible idea and was just really draining overall. although teachers were a bit more understanding, it just wasn't ideal and I didn't have a proper learning space so I felt as if most of it was a waste of time.

School is stressful and I barely have free time.

n/a

Stressed with school and home situations.

I had suicidal tendencies that almost enveloped me

School brings me the most stress out of everything because

I tie my grades into my worth so when things don't go the way I want them to, I get especially frustrated
